The Hog as a Source of Farm Revenue.

"When well managed the hog is one of the best sources of farm income. Hogs have paid for many a farm. We can sell hogs at any time of the year and almost at any age and weight."

This is one of the introductory statements in a remarkably interesting and useful booklet entitled "Hogs for Profit," just issued by the Bank of Montreal, and offered free to farmers at any branch of that institution.

For some time past the Department of Agriculture at Ottawa has been doing commendable work all over Canada in encouraging the production of hogs as a supplementary source of income for farmers, and the booklet will admirably assist this movement by making available to those interested plain and detailed descriptions, illustrated by over 200 photographs and diagrams, of the guiding principles of successful and profitable hog raising. While the booklet is of a general character, covering methods under a wide variety of climatic conditions, particular attention both as regards text and illustrations, has been paid to conditions pertaining to hog raising in Canada, and a special introduction has been contributed by Mr. G. B. Rothwell, B.S.A., Dominion Animal Husbandman at the Central Experimental Farm, Ottawa. Mr. Rothwell gives an outline of the principal breeds and types and the accepted methods of feeding in Canada, and offers general advice in regard to the principles described in the booklet.

Every phase of hog raising is pictured in the booklet, both by word and by photograph, the subjects dealing with the selection of sires and mothers, the choice of breeds and types, and the care of young pigs from the time they are born until they are ready for the market. Feeding, housing, the prevention of ailments and diseases, and the production of particular types for special markets, are all described; in fact there is no phase of the industry on which the best scientific knowledge is not made available in plain everyday language.

As the booklet says, the hog will produce more meat from 100 pounds of feed than any animal; it multiplies rapidly; and it will not only provide food for the farmer's family, but is one of the best sources of farm income. A free copy of the booklet may be obtained at the nearest local branch of the Bank.

A Demonstration-Lecture on Millinery will be held in the Lone Pine Hall on March 23, 25 and 27, and in the Mountain View Hall on March 24, 26 and 29. All ladies are welcome to take advantage of this offer to learn a few practical things about making hats. The lessons are free, the demonstrator being sent by the Department of Home Bureau Service.

For further particulars the Mountain View Women's Institute invite all ladies interested to attend a meeting at Mrs. R. P. Fultons on Thursday, March 18.

Mr. J. Luft has moved onto Mr. Pat. Worthington's place. Mr. Jack Weidner purchased a number of horses recently. Olaf Sande spent Sunday with friends over north. Ice cutting has been the order of the day.

Don't forget the club meeting Friday night, when the pupils of Westcott and Clovermount will contend in a battle of words on the Home Work question.

Mr. J. Luft has moved onto Mr. Pat. Worthington's place. Mr. Jack Weidner purchased a number of horses recently. Olaf Sande spent Sunday with friends over north. Ice cutting has been the order of the day.

COMING TO DIDSBURY. "Crumpy," the famous four act comedy, will be the attraction at the Didsbury Opera House on Wednesday, April 7th. Eugene C. Davis and Miss Maxine McLeay, who were here in "Smilin' Through" last spring are making a return visit to Didsbury and will undoubtedly be greeted by a packed house. Watch this paper for full particulars.

Under instructions from Charles Hillebrecht, I will sell by public auction on S.W. 1-4 Sec. 25-36-1, W. 5, 5 miles east and 1 mile north of Didsbury, on

MONDAY, MARCH 15

Westcott-Clovermount.

Clippings from the "Westcott Observer"

Mr. and Mrs. Falkman and family spent Sunday at the home of Mr. and Mrs. Fred Snyder.

Mr. and Mrs. H. O. Levagood spent Sunday afternoon with the Webster family.

Francis Byrt has gone home to work for his father during the spring. He says there is more "sand" around the Little Red. My! but won't the girls of Westcott be lonesome.

Miss Edith Murphy is back to school again.

Harry Garry is now working for H. D. Brown.

A surprise party was given last Friday in honor of Miss Georgina Brawne. The evening was spent in games and music after which a dainty lunch was served. A splendid time was reported by all.

A number of Westcott people attended the whist drive and dance in the Garfield school on Friday evening last.

Don't forget the club meeting Friday night, when the pupils of Westcott and Clovermount will contend in a battle of words on the Home Work question.

Mr. J. Luft has moved onto Mr. Pat. Worthington's place.

Mr. Jack Weidner purchased a number of horses recently.

Olaf Sande spent Sunday with friends over north.

Ice cutting has been the order of the day.

SCOTT'S EMULSION

of vitamin-rich cod-liver oil is especially helpful to an under-weight child.
GIVE SCOTT'S REGULARLY

WORLD HAPPENINGS BRIEFLY TOLD

Tentative plans for extension of the flight of the Spanish trans-Atlantic aviators headed by Commander Ramon Franco, have been abandoned.

Premier Bruce, of Australia, has announced that his government was considering a plan to reduce ocean fares for immigrants.

Buried beneath an avalanche of sawdust which he was clearing away, Robert Maitland met death by suffocation at a lumber mill in Vancouver.

Edward Noble, prominent British Columbia Orangeman, who walked in a parade there last July when he was 98 years old, died on Feb. 21 at Cedar Cottage, a suburb.

A resolution calling for the abolition of the stamp tax was unanimously carried during the third and final convention of the Retail Lumber Dealers' Association of the province of Quebec, attended by some 125 members.

France intends to give the Syrian people a form of government resembling that given to Iraq by the British. Count Robert De Caix told the mandate commission of the League of Nations.

Hon. H. W. Newlands, K.C., has been reappointed Lieut.-Governor of Saskatchewan. Mr. Newlands has been Lieut.-Governor of the province since February, 1921, when he succeeded Sir Richard Lake.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given, the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness. It is once believed he could never enjoy. Inexpensive and sold almost everywhere.

Ridiculous

The young lady, who, on being introduced to a famous professor, exclaimed, "Oh, professor, please do something about this!"

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Doctor.—Since I've started to attend you, you're not the same man. Patient.—Good, I hope you will present your bill to the other fellow.

Mrs. A. McDonald

Throat Trouble

Toronto, Ont.—"For about eight years I was subject to laryngitis, my throat would get very sore and I would lose my voice. I would have a spell of this kind a couple of times a year, especially in the winter when the weather was cold and disagreeable. It would be a couple of months each time before I would fully recover from these spells and get my voice back. I doctored and took medicine with little relief until I began taking Dr. Pierce's Golden Medical Discovery and it has so completely relieved me of this trouble that I scarcely ever have a sore throat or suffer in any way from my former trouble."—Mrs. A. McDonald, 28 McMurrich St.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists in both tablets and liquid. Send Dr. Pierce 10c if you wish a trial pkg.

Britain Discards Helicopter

Will Concentrate On Autogiro Type Which Is Much Simpler

The Brennan helicopter experiments, on which \$250,000 has been expended to date, will be discarded by the air ministry in favor of concentration on the Autogiro, it is understood. The ministry is credited with the intention of constructing four or five machines embodying the principles of the Spanish "Windmill" plane, which was hailed by Sir William Branker, Air Vice-Marshal when it was tried out at Farnborough as "the greatest aeronautical invention since the Wrights flew."

Experiments with the helicopter have been carried out in the closest secrecy for the last five years, but air experts are now said to have come to the conclusion that the autogiro type achieves all that the perfected helicopter would have been able to do, while its principles are much simpler.

Home Not Complete Without Nerviline

When your stomach is badly upset, when you are belching gas and suffering from nausea, the quickest relief will come from 20 drops of Nerviline. Take it in sweetened water and you get an immediate result. Nerviline has been used for nearly half a century and is considered a necessity in most houses, because of its usefulness in preventing many small ills that constantly arise. Sold everywhere in 35 cent bottles.

Boudoir Or Breakfast Coat

Nothing more fascinating among the fashions has emanated from Paris this season, than this tailored breakfast coat for restful leisure hours. It possesses all the loveliness and chic with which the smart woman of today loves to surround herself at all times. Heavy crepe de chine develops this model with puffed trimming around the edges, and having a side fastening. Wide wale corduroy or quilted satin are also suitable and practical materials. The diagram pictures the simple design of No. 1225, which is in four sizes only, 36, 40, 44 and 48 inches bust. Size 36 is suitable for 34 or 36 bust; size 40 for 38 or 40 bust; size 44 for 42 or 44 bust; and size 48 for 46 or 48 bust. Size 40 bust requires 4 1/2 yards 36 or 40 inches material. Price 20 cents.

Every woman's desire is to achieve that smart, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

Salesman For Face Cream Learns a Lesson

New York City. Mr. H. B. Menne writes:—"I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. I found it as impossible to sell skin creams as a baldheaded man finds selling hair tonic. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking Carter's Little Liver Pills my skin took on a new healthful look." Druggists, 25 & 75c red packages.

ON THE AIR

What is Doing in the World of Radio

G. B. Shaw says radio is doing service to theatres by training artists to perform without applause.

Reception of a radio programme from Johannesburg, South Africa, on a three-tube set at London, Ohio, recently has been verified.

The aurora borealis is being blamed by experts for unsatisfactory radio reception. There are now more reasons why the radio set will not work than why it should.—Hamilton Spectator.

An ordinary street light in an English town has the peculiar property of acting as a radio and every day it broadcasts radio programmes. The postman stops on his rounds to listen to a programme.

A college which will broadcast all of its lectures and instructions has been inaugurated at Vienna, Austria. The daily courses will start at 10 p.m. and will last approximately two hours.

Rough use of many radio tubes, and causes the owner to purchase a new set before he should need them. Handling tubes, taking them out of the sockets and such often causes damage to them.

Direct wireless telephonic communication with Australia, a distance of 12,000 miles, has been established by Frank Neill, an amateur of Whitehead, near Belfast, Ireland. The test lasted 15 minutes and the voice of a Melbourne citizen named Howden could be distinctly heard. The wave length used was 35 metres.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

First Recorded Eclipse

Eclipses were predicted by an Athenian, named Callippus, in the year 336 B.C. The first eclipse recorded in history happened on March 19, 721 B.C., according to Ptolemy. It was an eclipse of the moon, and was observed with accuracy at Babylon in Mesopotamia.

Still Enjoying Life at 84

Thanks To That Wonderful Remedy

Mrs. F. H. Miller, 1843-11th Ave., East, Vancouver, B.C., writes:—"Five years ago my husband suffered terribly with severe attacks of palpitation of the heart and smothering spells, and two doctors stated that he could not possibly live six months."

A friend recommended Milburn's H. and N. Pills, with the result that my husband is still enjoying life at the age of 84 years.

He has improved so wonderfully that he can now climb the stairs without having those awful pains in his heart."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

MARCH 7

JESUS WASHES HIS DISCIPLES' FEET

Golden Text: The Son of man came not to be ministered unto, but to minister, and to give His life a ransom for many. Matthew 20:28.

Lesson: John 13:1-17.

Devotional Reading: Psalm 138:1-6.

Explanations and Comments

Supreme Love, verse 1.—To rightly understand the scene in our lesson, we must know about the practice of foot-washing in Palestine. There were no pavements; no stockings nor socks were worn, and the shoes, or sandals, which were little more protection than would be the soles alone of our shoes, were removed on entering a house and left at the door. The limestone dust of the streets made the feet burn, and their cleansing with cooling water was refreshing as well as needful. Basin and ewer were kept ready for this purpose. The washing was performed by servants, or by the sons of the household as an affectionate duty, and was considered one of the humblest of services.

At the time of our lesson text, the disciples, as Luke tells us, had just had a dispute among themselves as to which one of them should be recognized as the chief disciple. Possibly they had disputed about their positions at the table where they were to partake of the Paschal lamb with their Master; or they may have wrangled over the question as to who should perform the menial task of washing the feet of the others. The spirit of pride and rivalry and self-assertion was rife among them. Jesus knew this. But He loved them. "Knowing that His hour was come when He should depart out of this world unto the Father," John tells us, "Jesus, having loved His own that were in the world, loved them unto the end." Or, "He loved them to the uttermost," as the margin of our Bible translates the Greek words.

Minard's Liniment for sore throat

You can train almost any dog to stay at home, but not a jazzhound.

HORSEMEN!

There is no better friend in the stable than Minard's. Splendid for sprains, swelling, stiffness.

Stefansson is Appointed As Advisor Of the Wade Polar Flight

Vilhjamur Stefansson, the Arctic explorer and native Manitoban, has accepted the post of technical advisor to next summer's aeroplane polar expedition, under the leadership of Lieut. Leigh Wade, one of the army round-the-world fliers.

Robert Anderson Pope, the expedition's organizer, announced that the party would remain in the Arctic three years if it discovers the supposed continent there, which is its goal.

STATION

Does Work Better Results

Communists Fail In Britain

Were Unable to Show Allegiance of Soldiers and Sailors

If they have no other cunning, they have the cunning of revolution. They have, from their own wicked point of view, gone the right way to work. Their immediate purpose is to seduce the sailors and soldiers from their allegiance, because they know that a revolution cannot be made without the army and navy. That they have failed is not their fault. They have done their utmost to obey the orders of Russia and to succeed. Fortunately, they have been discovered in time; they are undergoing a righteous punishment, and none who is not overcome by cynicism or levity would dare to extenuate their crime.—Blackwood's Magazine.

BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

CHAPTER XXIX.—Continued.

He could hear the ravening snap of those jaws out in the darkness. It was sickening. His hand went to the Colt .45 at his belt, and he thrust his empty rifle butt downward into the snow. With the big automatic before his eyes he plunged into the darkness, and from his lips there issued a wild yelling that could have been heard a mile away. With the yelling a steady stream of fire spat from the Colt into the mass of fighting beagles. There were eight shots in the automatic, and not until the plunger clicked with metallic emptiness did Carvel cease his yelling and retreat into the fire-light. He listened, breathing deeply. He no longer saw eyes in the darkness, nor did he hear the movement of bodies. The suddenness and ferocity of his attack had driven back the wolf horde. But the dog! He caught his breath, and strained his eyes. A shadow was dragging itself into the circle of light. It was Baree. Carvel ran to him, put his arms under his shoulders, and brought him to the fire. For a long time after that there was a questioning light in Carvel's eyes. He reloaded his guns, put fresh fuel on the fire, and from his pack dug out strips of cloth with which he bandaged three or four of the deepest cuts in Baree's legs. And a dozen times he asked, in a wondering sort of way: "Now what the deuce made you do that, old chap? What have you got against wolves?"

All that night he did not sleep, but watched. Their experience with the wolves broke down the last bit of uncertainty that might have existed between the man and the dog. For days after that as they travelled slowly north and west, Carvel nursed Baree as he might

have cared for a sick child. Because of the dog's hurts, he made only a few miles a day. Baree understood, and in him there grew stronger and stronger a great love for the man whose hands were as gentle as the Willow's and whose voice warmed him with the thrill of an immeasurable comradeship. He no longer feared him or had a suspicion of him. And Carvel, on his part, was observing things. The vast emptiness of the world about them, and their loneliness, gave him the opportunity of pondering over unimportant details and he found himself each day watching Baree a little more closely. He made at last a discovery which interested him deeply. Always, when they halted on the trail, Baree would turn his face to the south; when they were in camp it was from the

"With the big automatic before his eyes he plunged out into the darkness, and from his lips there issued a wild yelling that could have been heard a mile away."

south that he nosed the wind most frequently. This was quite natural, Carvel thought, for his old hunting-grounds were back there. But as the days passed he began to notice other things. Now and then, looking off into the far country from which they had come, Baree would whine softly, and on that day he would be filled with a great restlessness. He gave no evidence of wanting to leave Carvel, but more and more Carvel came to understand that some mysterious call was coming to him from out of the south.

It was the wanderer's intention to swing over into the country of the Great Slave, a good eight hundred miles to the north and west, before the muck-snows came. From there, when the waters opened in springtime, he planned to travel by canoe westward to the Mackenzie and ultimately to the mountains of British Columbia. These plans were changed in February. They were caught in a great storm in the Wholdala Lake country, and when their fortunes looked darkest Carvel stumbled on a cabin in the heart of a spruce forest, and in this cabin there was a dead man. He had been dead for many days, and was frozen stiff. Carvel chopped a hole in the earth and buried him.

The cabin was a treasure trove to Carvel and Baree, and especially to the man. It evidently possessed no other owner than the one who had died; it was comfortable and stocked with provisions; and more than that its owner had made a splendid

SPOHN'S

catch of fur before the frost bit his lungs, and he died. Carvel went over them carefully and joyously. They were worth a thousand dollars at any post, and he could see no reason why they did not belong to him now. Within a week he had blazed out the dead man's snow-covered trap-line and was trapping on his own account.

This was two hundred miles north and west of the Gray Loon, and soon Carvel observed that Baree did not face directly south in those moments when the strange call came to him, but south and east. And now, with each day that passed, the sun rose higher in the sky; it grew warmer; the snow softened underfoot, and in the air was the tremulous and growing throb of spring. With these things came the old yearning to Baree; the heart-thrilling call of the lonely graves back on Gray Loon, or the burned cabin, the abandoned tepee beyond the pool—and of Nepeese. In his sleep he saw visions of things. He heard again the low, sweet voice of the Willow, felt the touch of her hand, was at play with her once more in the dark shades of the forest—and Carvel would sit and watch him as he dreamed, trying to read the meaning of what he saw and heard.

In April, Carvel shouldered his furs up to the Hudson's Bay Company's post at Lac la Biche, which was still farther north. Baree accompanied him halfway, and then—sundown Carvel returned to the cabin and found him there. He was so overjoyed that he caught the dog's head in his arms and hugged it. They lived in the cabin until May. The buds were swelling then, and the smell of growing things had begun to rise up out of the earth.

Then Carvel found the first of the early Blue Flowers.

That night he packed up. "It's time to travel," he announced to Baree. "And I've sort of changed my mind. We're going back—there." And he pointed south.

CHAPTER XXX.

A strange humor possessed Carvel as he began the southward journey. He did not believe in omens good or bad. Superstition had played a small part in his life, but he possessed both curiosity and a love for adventure, and his years of lonely wandering had developed in him a wonderfully clear mental vision of things, which in other men is imagination. He knew that some irresistible force was drawing Baree words might be called singularly accurate back into the south—that it was pulling him not only along a given line of the compass, but to an exact point in that line. For no reason in particular the situation began to interest him more and more, and as his time was valueless, and he had no fixed destination in view, he began to experiment. For the first two days he marked the dog's course by compass. It was due southeast. On the third morning Carvel purposely struck a course straight west. He noted quickly the change in Baree—his restlessness at first, and after that the dejected manner in which he followed at his heels. To

ward noon Carvel swung sharply to the south and east again, and almost immediately Baree regained his old eagerness, and ran ahead of his master.

A week later Baree answered Carvel's question by swinging westward to give wide berth to Post Lac Bain. It was mid-afternoon when they crossed the trail along which Bush McTaggart's traps and deadfalls had been set. Baree did not even pause. He headed due south, travelling so fast that at times he was lost to Carvel's sight. A suppressed but intense excitement possessed him, and he whined whenever Carvel stopped to rest—always with his nose sniffing the wind out of the south. Springtime, the flowers, earth turning green, the singing of birds, and the sweet breaths in the air were bringing him back to that great Yesterday when he had belonged to Nepeese. In his unreasoning mind there existed no longer a winter. The long months of cold and hunger were gone; in the new visionings that filled his brain they were forgotten. The birds and flowers and the blue skies had come back, and with them the Willow must surely have returned, and she was waiting for him now, just over there beyond that rim of green forest. (To be continued)

Muscular Rheumatism Subdued.

When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Little Helps For This Week

Blessed is that servant whom his Lord when He cometh shall find so doing.—Luke, XII, 43.

Forenoon, and afternoon, and night; forenoon, and afternoon, and night; forenoon and what; The empty song repeats itself! No more? Yea, that is life; make this forenoon sublime. This afternoon a psalm, this night a prayer; And time is vanquished, and thy victory won. —Edward Rowland Sill.

To give happiness and to do good, there is our only law, our anchor of salvation, our beacon light, our reason for existing. All religions may crumble away; so long as this survives we have still an ideal, and life is worth living.—Henri Frederic Amiel.

BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home

No other medicine is of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and thus drive out constipation and indigestion; prevent colic and diarrhoea and break up colds and shiple fevers.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N.S., says:—"I have six children, and all the medicine they ever get is Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all other mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Cannot Solve Secret

Tahiti "Fire Walkers" Have Always Been Puzzle to Scientists

Most everyone has heard of the Tahiti "fire walkers," but few have viewed their curious feat. A trench two feet wide and two feet deep is filled with boulders, on top of which a fire is kept for hours until the stones have attained a white heat. The ashes are cleaned off, then the walkers stroll nonchalantly over the hot stones, barefooted. Scientists have made intensive studies to learn the secret, but it's still a secret, and theirs only.—Variety, New York.

Saskatchewan Wheat Crop

The value of the wheat crop of Saskatchewan was \$264,606,000 in 1925, or substantially more than half of the total Dominion value, according to final report of the bureau of statistics. A total of 13,002,741 acres were seeded which yielded an average of 18.5 bushels per acre, or a total of 240,551,000 bushels.

Minard's Liniment for dandruff

Heal It With Zam-Buk

To dress any Cut, Bruise, Burn, Scald, or Scratch with Zam-Buk means that pain is soothed away—that injured skin is instantly protected against poisonous germs—that natural healing is hastened. Even wounds that have taken "bad ways," and obstinate cases of Eczema, Psoriasis, Ulcers, Ringworm and Piles, are all successfully treated by this wonderful herbal balm.

50c. box, 3 for \$1.25 all dealers.

Splendid For SKIN TROUBLES

Not Considered A Mystery

In reading I have noted a steady stream indicating that while a man may be understood, a woman is always a mystery. I have not found it so; I often make mistakes, but not oftener in estimating women than in estimating men. The problems of women are different, but every natural creature does the same thing under the same circumstances. A farmer finds that roosters, cockerels, pullets and hens differ, but knows one as well as the other.—E. W. Howe's Monthly.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a broken down, as it were, of the vital forces that sustain the system. No matter what may be the cause, it is a condition of weakness, its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what is absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as might be expected the day this may be more certainly secured is a course of

THE NEW FRENCH REMEDY.

THERAPION No. 3 then by any other known combination. So, surely as it is taken in accordance with the directions accompanying it, will the shattered system be restored.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH. and a new resistance imparted in place of what had so lately seemed worn out, used up, and valdied. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a disease or derangement whose main feature is weakness, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide spread & numerous class of human ailments. Sold by leading Chemists, or either by return mail from Dr. LECLERCQ'S Co., Waterford, N.W. & London.

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any cure for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sanative Wash."—Mrs. L. LAJEUNESSE, Box 100, Coniston, Ontario.

RASH ITCHED ALL THE TIME

On Face, Skin-Sore and Red. Healed by Cuticura.

"I was troubled with a rash on my face and the skin was sore and red. It itched and burned all the time causing me to scratch, and the scratching caused eruptions. My face looked terrible, and the trouble lasted about four months."

"I used other remedies but did not get results. I began using Cuticura Soap and Ointment and got relief in a short time. I continued the treatment and in about six weeks I was completely healed." (Signed) Miss Doris White, R.F.D. 1, Fruitland, Idaho, Oct. 2, 1924.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

Sample Each Free by Mail. Address Canadian Agent: The Cuticura Co., Ltd., Montreal. Price, Soap 10c. Ointment 15c. and Jar, Talcum 10c. Cuticura Shaving Stick 25c.

SATURDAY, MARCH 13

'Dante's Inferno'

Also Sixth Episode
"INTO THE NET."

THURSDAY, MARCH 18

HAROLD LLOYD in
'The Freshman'

This is being shown on Thursday, as the Hall has been engaged by the Oddfellows for their dance on Wednesday

Local and General.

Mrs. S. G. Watt is expected to return home on April 3rd.

Wanted— Quart bottles, must be clean—W. G. Leisemer.

The Adshad Garage received a car of Chevrolets this week from the factory.

A number of new Star cars arrived this week consigned to W. G. Leisemer, the local agent.

Lutheran services at Westcott for next Sunday appear in an advertisement on the front page of this issue.

Mr. Meek is disposing of his farm effects and Household goods by auction on Thursday, March 23rd.

Divine service with holy communion will be held at St. Cyprian's on Sunday morning next, at eleven o'clock.

W. E. Flinn was re-elected reeve of Mountain View Municipal district at a meeting at Olds on Saturday last.

The fine weather on Sunday induced several of our golf enthusiasts to try out the links, and they report their condition as being very good.

Exemplifying the mild weather we are having, one notices a number of the trees around Didsbury residences are all in bud and just bursting into leaf.

The Hub Grocery carries a full line of oyster shell, chicken grit, chick feed, Royal Purple laying meal and calf meal, ground calf meal stock specific and louse killer. Money spent on these pay large dividends.

A. Ross of Harmattan was in town on Tuesday receiving treatment for an accident he met with a couple of weeks ago, in which one of his fingers was cut off and another badly injured whilst working with a buzz saw.

A dance will be held in Rosebud school on Friday, March 19, MacDonald's orchestra. Come and have a good time. Also Keep Easter Monday clear for a dance at Rosebud School in aid of the Wood's Home at Olds. Further notice later.

A meeting of the council of Westerdale municipal district was held at Westerdale on Saturday, last. The business transacted consisted principally of election of reeve and committee. N. S. Clark and C. R. Pickett were both re-elected reeve and deputy-reeve respectively.

J. A. McGhee and J. R. Miller, holders of the buttons, put up a strong defence at the curling rink on Monday night against W. J. Derby and A. Brusso, and won by a good margin. S. G. Watt and J. S. McCloy played off for the Clark cup on Tuesday, the latter being the winner.

The Westcott musical and literary Club will put on a special program on Friday evening, March 19, in the form of a "Negro Minstrel Show". A small charge will be made at the door. This promises to be an exceptionally good program. The negroes have been practising several weeks. If you can't laugh don't come.

A father and son banquet has been arranged by the Tuxis boys and Trail Rangers to be held in the Oddfellows hall on Friday night, March 12th of this week. The idea is to try and stimulate interest in boy's work in Didsbury, and the hope is expressed that all will unite in endeavoring to make the event as successful as possible.

Lovers and well-wishers of the Emerald Isle and they are many, will have the opportunity of participating with the natives of that country in celebrating St. Patrick's Day on March 17th, next week, when the Oddfel-

lows will hold a dance in the Didsbury Opera House.

Three of the Falkman Bros., John Fred and Henry, returned on Friday last, by auto from a visit to Los Angeles, Cal. They left Portland on the Monday and on the whole had a fairly good trip. They reported, however, the roads out of Spokane as being somewhat rough, but the worst spot on the whole trip was on the other side of Sandpoint, Idaho, where the wet weather caused some bad places in the road. They also encountered some snow and ice through the pass, but not enough to impede progress.

It was announced on Tuesday, March 9th, that John Campbell Elliot, K.C., representing the country of West Middlesex in the House of Ottawa, has been appointed a privy councillor and Minister of Labor in the Government of Premier MacKenzie King. Mr. Elliot, at one time owned a farm eighteen miles east of Didsbury, but disposed of it a few years ago, and his appointment therefore, will be of interest and a source of pleasure to many in the district.

Wednesday of this week marks the fiftieth anniversary of the invention of the telephone by Alexander Graham Bell, and the occasion will be celebrated by the staffs of the Alberta Government Telephone system in prescribed form. Banquets have been arranged both at Calgary and Edmonton, where addresses appropriate to the occasion will be given. The local staff will participate as far as possible with others at Calgary. It may be of interest, in connection, to mention that the Alberta Government system now has 64,000 telephones in operation within the province.

On Saturday, March 13th, will be shown "Dantes Inferno." Children under the age of 16 years will not be admitted to this picture, but for their benefit a matinee will be given at three o'clock, at which the serial "Into the Net" and another picture will be shown.

On Thursday, March 18th, Harold Lloyd will be shown in "The Freshman," note change of night, Wednesday having been engaged by the I.O.O.F. for their annual dance.

Coming soon, "The Hunchback of Notre Dame." Watch for the date.

MAIL CONTRACT.

SEALED TENDERS, addressed to the Postmaster-General, will be received at Ottawa until noon, on FRIDAY, the 2nd APRIL, 1926, for the conveyance of His Majesty's Mails, on a proposed contract for a period not exceeding four years three times per week on the route Didsbury Rural Route No. 2 from the 1st July next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Post Office of Didsbury and at the office of the District Superintendent of Postal Service.

District Superintendent's Office, Calgary, Alberta, February 19, 1926.

Ford Introduces National Payment Plan

For twenty-one years the Ford Motor Company of Canada, Limited, has pioneered in the field of motor transportation, doing everything possible to make high quality cars easy to buy and economical to own, in order that the greatest number of people may enjoy the benefits and advantages of owning a car.

In line with this policy, a new and unique time payment plan has been inaugurated which makes it possible for more people to own Ford cars.

This is called the National Time

Payment Plan because the payments are the same anywhere from Halifax to Vancouver.

Through this plan you know definitely in advance, the amount of the down payment and the installments required to buy the car you want.

You pay only the advertised amount—no more. All Ford models are now obtainable on this plan from your local authorized Ford dealer in conjunction with Traders Finance Corporation, Limited.

NATIONAL TIME PLAN PAYMENTS

Payments throughout Canada are standard. Down payments do not vary regardless of tax, license, insurance, freight and delivery charges

Runabout	-	\$175	down and	\$35	a month
Touring	-	200	"	35	"
Coupe	-	250	"	40	"
Tudor	-	275	"	40	"

"MAKE IMMIGRATION HUMAN" SAYS C. P. R. PRESIDENT: SIR THOMAS WHITE PAYS HIM HIGH TRIBUTE

E. W. Beatty, K.C.,
Chairman and President
of the C.P.R.

Sir Thomas White,
Former Federal
Finance Minister.

Addressing the Associated Boards of Trade banquet at Winnipeg recently, E. W. Beatty, chairman and president of the Canadian Pacific Railway, said that one of the most significant facts of the conference was the desire of men from all parts of Canada to discuss the country's problems from an economic and national point of view, free from the bewildering influence of political partisanship. "This," Mr. Beatty said, "leads me to the inevitable conclusion that the question of Confederation on the principles of national unity which guided the fathers in establishing it cannot be solved by political manipulation, but only by that mental attitude which comes from understanding and is the result of honest education."

In order to achieve national prosperity, Mr. Beatty advocated an extensive immigration policy to supply the man power necessary for the "largest undeveloped country in the world." "If I had any suggestion to make in respect to this question," continued the president, "I would suggest that we take it out of the field of statistics and place it in the field of human relations. We are apt to forget that the people who come to our shores are not so many hundreds or thousands of British or Continentals with or without settlers' effects. They are human beings, members of families who have torn themselves up from old homes, homes in some cases centuries old, to come and live in Canada, to be neighbours, if we are willing to be neighbourly, and to become good citizens if we only hold out a welcoming hand."

"We realize how great the wrench must be when we learn that some bring with them a handful of earth so that when the time comes for them to die in Canada it may be scattered over their coffins. I wonder how many Canadians, who have made the trek to the United States, have ever thought to carry with them a handful of Canadian soil. No immigration scheme for Canada can ever achieve success unless due allowance is made for such human factors."

On the same occasion Sir Thomas White, former Federal Minister of Finance, paid a high tribute to Mr. Beatty. Sir Thomas said that he had always looked upon Mr. Beatty as a representative Canadian who typified the qualities which are to be found in true Canadians. Mr. Beatty had carved his own niche in Canadian affairs and had made his own way in the world as in the manner of Canadians. As president of the Canadian Pacific Railway, Mr. Beatty occupied one of the highest positions in the Dominion and was absolutely unspoiled by his enormous success, and Sir Thomas liked to think that in this the former was also a characteristic Canadian.

Referring to the improvement of the Canadian Pacific Railway, the former Finance Minister pointed out that the history of the Dominion and the Company were intertwined and could not be dissociated. The Canadian Pacific Railway had stood as the type of exemplary Canadian enterprise and courage in the face of apparently insurmountable obstacles. Sir Thomas also commented favorably on the good work the Canadian Pacific Railway had done during the Great War, and later on in going ahead with work, at the request of the Government, in order to give employment to soldiers who were returning after the war.

Hobbed hair won its oldest and latest recruit from Mrs. James Whaley, Cadillac, Mich., 93, mother of eleven children.

Howard Carter has arrived at Cairo, Egypt, from Europe and is making preparations for resuming his excavation work in the tomb of Tut-Ankh-Amen.

The Rockefeller Foundation has given to Jugoslavia \$200,000 for the construction of a school of hygiene at Zagreb, the administrative capital of Croatia.

The British embargo on United States potatoes has brought appeals to several government departments for co-operation in an effort to have the ban modified.

The Paris police have arrested J. Elka Goldman, a Pole, on a charge of victimizing passengers on the liner Lutetia with altered United States five dollar bills, according to Le Journal.

Barney Haggerty, 85, credited with having hauled the first plow into the Grand Forks, B.C., district on an ox-cart in 1874, is dead. He came from Ontario.

Needle trade unions, representing 150,000 workers and two labor banks, have combined in a project to eliminate slum evils and high rents in New York City through the construction of model tenements for workers.

A temporary plaster cast of a proposed memorial to Canadian nurses who died during the war is being erected in one of the niches of the main corridor of the centre block of the Parliament Buildings at Ottawa.

After a lengthy silence Foreign Minister Stresemann has come out openly in favor of a coalition with the Nationalists, claiming that the national policy is endangered if such a step is not taken.

Commander D. Jones, chairman of the Scottish Fisheries Board, plans for the settlement of Hebridean fishermen on the west coast of Vancouver Island. He will inspect possible settlement areas before reporting to the Overseas Settlement Board in England.

W. N. U. 1558

H. B. Co. Gets Land

6,639,000 Acres of Western Canada
Land As Final Settlement

Under an agreement between Hon. Chas. Stewart, Minister of Interior, and the Hudson's Bay Company, the company is to receive 6,639,000 acres of land in Western Canada in final settlement of the terms of purchase entered into in 1867.

The land is to be selected from the "fertile belt," which is bounded by the Rocky Mountains, the Saskatchewan River, the Lake of the Woods and the International boundary.

The history of the dispute dates back to the time when the Canadian Government agreed to pay a certain sum of money and give other considerations of land, etc., in order to compensate the company for the retirement of its charter. The agreement provided that among other considerations the company was to receive one-twentieth of the land in the "fertile belt" before mentioned. There arose a disagreement as to whether Canadian reserve, etc., should be classed in the total of which the company was to receive a twentieth part, and the negotiations have been proceeding for years and years. The company claimed 7,100,000 acres, but finally agreed to accept 6,639,000 acres as final settlement of the terms of the 1867 agreement.

Another Air Mystery

Two Members of Royal Air Force
Disappeared July 24

To the many unsolved mysteries of the air has been added another in the disappearance of First Lieutenant W. T. Day and Pilot Officer D. R. Stewart, two members of the Royal Air Force in Iraq, who set out on July 24, from their aerodrome at Shaibah, and never returned.

Their abandoned machine was found in a lonely part of the desert. It was intact, there was petrol in the tank, and as a matter of fact it was afterwards flown back to the aerodrome. The most exhaustive search has failed to discover any trace of the missing airmen.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oily preparation, it has come to be known as **King over all Pain**. For rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

Brandon's Population

According to City Assessor McIntyre, who has been engaged in a census of the city, the present population of Brandon is 16,536. He states that there will be very little change in the land and building assessment of the city for 1925.

Many mothers have reason to bless Mother Graves' Worm Expeller, because it has relieved the little ones of suffering and made them healthy.

Another Scientific Discovery

German Professors Claim Solid
Insulin New Diabetes Remedy

A new help for sufferers from diabetes in the form of a solid insulin named Insulingual is offered by Professors Kraus and Goldschneider, of Berlin University medical clinic.

Insulingual is insulin in the form of a solid powder, which can be rubbed on the tongue and thereby absorbed directly into the blood. This is considered to be scientifically interesting, because the discoverers of insulin, Banting and Best, of Toronto, Ont., are reputed to have held that treatment by insulin was possible only through injections.

An Ancient Hindu

A London police magistrate was host to a thousand-year-old man recently. The Hindu was arrested on a charge of intoxication and several days later entered a plea for "mercy" on the grounds that he was "an old, old man"—just how old he didn't know—but at least a thousand years. He claimed to have invented a "long life medicine."

Radio Growing In Germany

Subscribers Increase From 2,000 To
500,000 In Year

The growth of radio in Germany is strikingly illustrated by figures given out by the post office department, which is in control of the radio casting field. Whereas at the beginning of the year only 2,000 radio subscribers were listed with the department, Christmas finds 500,000 subscribers. Dr. Hans Bredow, the minister in charge of the service, estimated that the number of subscribers per month will average about 100,000 for some time to come.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Weland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Britain Will Build

Two Battleships

To Carry Nine 16-inch Guns With
30,000-yard Range

The new British battleships Rodney and Nelson, first 35,000-ton post-treaty capital ships to be built, will carry nine 16-inch guns, 50 calibre wire-wound guns mounted three to a turret with all three turrets in the forward part of the ships, a house naval sub-committee has been informed by Captain Harry H. Hough director of naval intelligence.

By comparison with the United States 16-inch gun class ship, the West Virginia, Colorado and Maryland, and the Japanese equivalent, Matsu, the Rodney and Nelson will be of greatly increased size and power, and will have a gun range in excess of 30,000 yards.

For Rheumatic Pains.—The pains and aches of Scleritis and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

International Show

Geneva, home of the League of Nations, is planned to be host next September at an international radio exposition. All the nations of the world are expected to participate.

**Don't Get Bald
Cuticura Does Much
To Prevent It**

Dandruff, itching and scalp irritation point to an unhealthy condition of the scalp which leads to falling hair and premature baldness. Frequent shampoos with Cuticura Soap do much to prevent such a condition, especially if preceded by a gentle anointing with Cuticura Ointment.

Sample Each Free by Mail. Address Canadian Agent, "Cuticura," P. O. Box 5116, Montreal. Price, Soap 5c, Ointment 2c and 10c. Try our new Shaving Stick.

Success With Alfalfa

By James D. McGregor, Glencarnock
Stock Farms, Brandon, Manitoba

Part 5—(Continued)

While alfalfa is one of the oldest known agricultural plants it is apparently just beginning to be recognized and its true value appreciated in Western Canada.

In my opinion the secret in growing alfalfa is largely due to the genuine Grimm seed being used, preferably produced as near where you are going to sow it as you can possibly get it.

Baltic is simply another name for Grimm and is exactly the same strain and comes from the same parent stock.

Alfalfa, either hay or green, as feed for all kinds of farm animals, is the most highly nutritious and palatable forage crop that can be grown. It is particularly valuable as a feed for dairy cows. When properly cured, it has more nearly the effect of good June pasture than any other feed. It is a well known fact that wheat bran is worth only slightly more than alfalfa hay, and when the palatableness of the hay is taken into consideration, this difference also disappears. The dairyman feeding bran with the ordinary roughages such as prairie hay, timothy, or corn fodder, could well afford to exchange one-half his bran for an equal number of pounds of good alfalfa hay. Alfalfa hay, corn silage and a small amount of ground oats, make an ideal dairy ration.

For fattening beef cattle, alfalfa has no equal as a roughage. It is generally figured that it will require 1,000 pounds of grain to produce 100 pounds of beef on mature cattle, with the ordinary roughages such as prairie hay or corn fodder. When good alfalfa hay is fed with the corn, the amount of grain required will be reduced nearly one-half. This fact holds true with the feeding of all classes of livestock. The alfalfa balances the ration to such an extent that less other feed is required to make a given gain. This is particularly true with young stock, which require a large amount of the growth-producing element, protein.

It has been demonstrated that an acre of alfalfa will produce 776 pounds of pork during a season. This calculation was made by deducting the probable gain due to a small amount of grain which was fed while the hogs were on pasture. It is possible to winter mature hogs on good alfalfa hay and only a very small amount of grain.

Alfalfa pasture is the very first green thing on the farm in the spring, and remains green all summer. Every farm in Western Canada should be equipped so as to keep six or eight brood sows. Pigs farrowed in March or April are ready to use the alfalfa pasture as soon as it is large enough. By June 15, hullless barley is ripe and ready for the pigs to be turned into it, and will hold them until the corn is ready. By August 15 the pigs are just the right size to turn into a field of early Flint corn, which they convert into ham and bacon at the least possible expense.

Alfalfa, both green and as hay, is also fed to horses. When beginning to feed alfalfa, care should be taken that horses do not get more of it than is good for them, as it is so much richer than other hays. Alfalfa hay alone is too rich a feed for horses. There should always be some grain or roughages, such as oats, corn fodder or prairie hay, fed with it. When fed exclusively, it is likely to produce coarseness, especially in colts.

The value of alfalfa for sheep is attested by the fact that the irrigated regions of Alberta are full of sheep feeding quarters, where large flocks are fattened each winter on alfalfa hay and grain.

Alfalfa is a great poultry feed, either eaten green from the fields in the summer time, or chopped and fed in the winter. Chopped hay or meal mixed with a small amount of grain, put in a barrel or tub, and hot water poured over it and allowed to steam for a few hours, will be eaten as greedily as green feed in the summer time.

After growing alfalfa ourselves continually for the past fifteen years, as part of our Glencarnock farming operations, we can say conclusively that we have found it to be one of the most valuable feed crops we can produce on our farms and we are increasing our acreage of alfalfa each year.

Twenty-nine million herring were landed recently at Lowestoft, England, in two days.

For First Aid—Minard's Liniment

Treat Colds Externally

For sore throat, bronchitis or deep chest colds, rub Vicks VapoRub briskly over throat and chest and cover with warm flannel.

Vicks acts in two ways—both direct: absorbed like a liniment and inhaled as a vapor. A quick relief for the cold troubles of all the family.

SUNDAY SCHOOL LESSON

JANUARY 11

THE LAST JUDGMENT

Golden Text: Inasmuch as ye did it unto one of these my brethren, even these I do unto me. Mathew 25:40.

Lesson: Mathew 25:31-46.

Devotional Reading: Ecclesiastes 12:1-8, 13, 14.

The Text Explained and Illumined

The Judgment, verses 31-33. "When the Son of man shall come in his glory," thus Christ begins his parables of The Judgment. Compare Mt. 24:30; 25:6-19. "Napoleon's last biographer devotes two volumes to the rise of his hero and two volumes to his decline and fall. All the volumes of the life of Jesus record the story of the ascent. He goes on from victory to victory, from glory to glory, and as men's eyes become cleansed and their hearts purified they see with increasing certainty that God has indeed so highly exalted him that some day every knee shall bend to him and every tongue confess that he is King indeed" (Dr. C. E. Jefferson).

"Just as the notes of an organ have all to be attuned in proportion of tone and semi-tone to the central dominant note of the harmonic system, so all life's attitudes and activities must harmonize with the fundamental note of Christ's lordship" (Dr. J. S. Holden).

At the Last Judgment, so Christ's parable declares, he himself will sit on the throne of judgment, and before him will be met all the nations, and he will separate them as the shepherd separates sheep from goats, putting the righteous on his right hand and the unrighteous on his left. "A good judge is the promise of a good judgment. The world will have a good Judge, the wisest, the fairest, the best. On his judgment the world may rely, for his judgments admit of no correction nor improvement."

Interested In Eskimos

Knud Rasmussen Coming to Canada to
Discuss Plans to Help Northern
Tribe

Knud Rasmussen, the Danish explorer, will leave for Canada in February on the invitation of the Canadian Government, with officials of which he will discuss plans to improve the material, culture and status of the Canadian Eskimos.

Rasmussen is of the opinion the Alaskan Eskimos are living under far better conditions in all respects than Eskimos of all other countries, and he ascribes this to the educational activities of the American authorities.

THERAPION No. 1
THERAPION No. 2
THERAPION No. 3**

No. 1 for Bladder Catarrh. No. 2 for Blood & Skin Diseases. No. 3 for Chronic Weaknesses. Sold by Leading Chemists. Price in English and French. Each bottle 1/6. Haverstock Park, N.W. London or Mail Order from R. FRONTZ, 2, Toronto, Ont. or 30, Broadway 31st St. New York City.

**In the low-price field
where is the car
that equals it?**

Before buying a car—open or closed—in the low-priced field, ask yourself these questions:

1. Is it as comfortable and smart in appearance as the New Chevrolet?
2. Does it boast of such advanced features, as dry disc clutch, genuine Duco finish, vacuum gasoline system with tank in rear?
3. Has it an overhead-valve engine?
4. Has it a genuine Fisher Body?
5. Can it duplicate Chevrolet's speed, hill-climbing ability and all-round dependability?

Because no other car at or near Chevrolet price can answer all these questions and because Chevrolet delivers a greater measure of quality and value for your dollars than any other low-priced car—this is the car for you.

RED ROSE TEA

"is good tea"

Perhaps you use good tea. We think Red Rose extra good.

Another Fruitless Strike

The folly of strikes and lockouts as a means of settling labor disputes is once again demonstrated in connection with the ending of the miners' strike in the anthracite coal fields of Pennsylvania. Originally the miners demanded a ten per cent. increase in wages, about \$1.00 per day, and the check-off system, the latter being the method whereby the coal companies collect dues for the union by deductions from the miner's pay. The coal operators refused to increase wages, refused the check-off, and offered periodic arbitration and a long contract.

As a result of the ensuing deadlock, 153,000 men working in 328 mines of 135 companies abstained from work for a period of 165 days, and lost wages aggregating to about \$1,000,000 a day. On the other hand, the coal companies lost the profits on 266,000 tons of coal a day, and the industry and the community lost, it is estimated, one billion dollars, while the people of the United States, and to some extent in Eastern Canada, suffered loss and endured hardships because of lack of fuel. The effect on the morale of these 153,000 men in idleness, and the women and children dependent on them, cannot be estimated in dollars and cents.

To offset these losses, what have the miners gained? The settlement arrived at provides that they go back to work at once at the old scale of wages—no increase being granted—and continue uninterrupted to August 31, 1930. After January 1, 1927, either side may, not oftener than once a year, propose changes in the contract, but if the two parties fail to agree after thirty days negotiation, then the decision shall rest with a board of two men. The check-off is not specifically provided for, but it is provided that "questions of co-operation and efficiency shall be referred to a conciliation board of three operators and three miners." The miners classify the check-off as "co-operation and efficiency" and expect to get a modified form of check-off.

Without any increase of wages, and bound not to re-open the issue for a year, the miners have little opportunity of making up the \$165,000,000 of wages lost to them through the strike. They have weakened their position in other respects. While the mining of hard coal in the anthracite fields of Pennsylvania was at a standstill, the miners and operators in the West Virginia and Kentucky fields found a market for all the coal they could mine, and excessive demand made it possible to boost prices all along the line. As many of the anthracite mine owners are also interested in these southern fields, what they lost in Pennsylvania they made up in the southern states, while the general public paid. But the miners had no means of recouping their losses.

Furthermore, these periodical strikes in Pennsylvania—there have been eight strikes since 1900 aggregating nearly 700 days, or nearly two full years of labor—have resulted in manufacturers and others turning more and more to the use of oil for fuel and electric energy developed from waterpower, thus steadily and permanently decreasing the demand for coal. The effect in Canada has been to create an almost universal national demand for the development of the coal resources of the Dominion, and thereby release this country from dependence on the United States, and keep an average of one hundred millions of good Canadian dollars at home which are now annually sent to the United States for coal.

Thus it will be seen the miners have gained little, if anything, as a result of resorting to the obsolete weapon of the "strike," but, on the other hand, have lost much and are in danger of losing more.

With but few exceptions for many years past, the history of strikes in Canada, United States, Great Britain has been the same—a record of failure to achieve anything at all commensurate to the losses sustained, and, as a rule, nothing but loss to everybody concerned, the public included.

Efforts are being made the world over to prevent war as a method of settling disputes between nations. War is universally recognized and condemned as a relic of barbarism, as a blot upon our civilization, as a denial of our boasted culture and Christianity. That it entails enormous suffering and economic loss upon the victor as well as the vanquished, and in the final analysis settles nothing, is fairly generally admitted as the general experience following the Great War.

A "strike" is merely another name for war in the industrial world. It is a form of civil war, and often leads to bloodshed and the destruction of property. It entails huge economic loss, and much human suffering, and, let it be emphasized, in the final analysis settles nothing.

In the international arena, the League of Nations and the World Court it has brought into being are successfully striving to supplant war with the civilized and sane processes of consultation and arbitration. In the realms of labor and industry war, that is the strike weapon, should likewise be abolished, and conferences, consultation, arbitration substituted, and such sane and economical methods employed before a "strike" and not after, as is now almost universally the case.

CHILDREN CRY FOR FLETCHER'S CASTORIA

FLETCHER'S CASTORIA

MOTHER— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Another Use For Helium

Mixed With Oxygen Permits Divers to Reach Greater Depths
Another use seems to have been found for helium, the inert, non-inflammable gas that is used for inflating the American dirigible balloons. One of the dangers of deep-sea diving is the absorption of nitrogen by the blood. Recent experiments indicate that a mixture of helium and oxygen will permit divers to descend to depths greater than have been attained, and to ascend more rapidly without danger.

COLOR IT NEW WITH "DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, drapery, coverings, hangings—everything!
Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Tyrian Lodge of Masons in Gloucester, Mass., has a chapter signed by Paul Revere. The precious document is kept in the vault of a bank, only a copy being hung in the lodge room.

Headache and Tired Feeling Disappeared

So Says Ontario Lady After Taking Dodd's Kidney Pills

Mrs. M. E. Hall Gives Her Experience With Dodd's Kidney Pills
Huntsville, Ont.—(Special)—Dodd's Kidney Pills relieved my kidney trouble in very short time and I didn't take as many as was marked for a dose on the box. They made me feel better all over. I could eat better, sleep well, didn't have headache or that tired feeling. I highly prize them.
This statement comes from Mrs. M. E. Hall, a well known and highly respected resident of this place.

Dodd's Kidney Pills strengthen the kidneys and put them in good order to do their full work of straining the impurities out of the blood. With pure blood there is good health all over the body.

There is no reason why anyone should continue to suffer when Dodd's Kidney Pills can be obtained from druggists everywhere, or The Dodd's Medicine Co., Ltd., Toronto.

New Type of Talking Machine

Voice Is Registered On a Film Instead of Disc Record

The talking machine industry may be revolutionized as a result of an invention announced in Paris, which supplants the well-known disc, which is capable of playing only a few minutes, with a celluloid film which can be made as long as anyone wants.

M. and Mme. Fauchon-Johnson, sharing their laboratory together, like the famous Curies, are the inventors. The French scientific world is singing the praises of the plucky couple who worked for 11 years in the most extreme poverty and in sickness until they realized their ideal. By the new invention, it is claimed, the dialogue or musical score, as well as moving picture, can be registered on the film.

It raises the dictaphone to a new plane of business and usefulness, since it obviates the necessity of continually changing records. It promises the discard of all types of records now used on talking machines in favor of the more compact film of any length desired.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Chinese Celebrate Their New Year
The Chinese New Year began Saturday, Feb. 13. This is year 4869 according to the Chinese reckoning. The New Year brought a week of relaxation, festivity and exchange of courtesies.

Minard's Liniment used by physicians

W. N. U. 1618

Preparing to Export Many Commodities During Next Six Months

Officials of the commissariat of agriculture announce that Russia is preparing to export to the United States during the next six months, six billion eggs, 80,000,000 pounds of butter, and 40,000,000 chickens, ducks, turkeys and wild fowl.

The United States, officials say, will also be able to absorb about seven million dollars worth of sausage casings, \$10,000,000 worth of wool for carpets, horse hair, and animal bones for sugar refining purposes.

Declaring that these commodities are now being purchased by the United States in England and Germany, they urge Russian producers to compete for this trade.

Rhone Tunnel Nearly Completed

Has Provided Work For 800 Men Daily For Fifteen Years

The Rhone tunnel which links the town of Marseilles with the Rhone, is about completed. It will be officially opened this year. Started in 1911, this tunnel, 7,120 meters long, which will permit shipping of certain tonnage to travel direct between Marseilles and the Bette, has an average width of eight meters, although in some portions the depth is more than thirty meters. Since 1911 some eight hundred men have been working daily, representing some 30,000,000 hours of labor.

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Eclectic Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Broadcasting Heat

Anything May Become Possible in These Days of Scientific Progress
The day is not far off, says a technician of Pittsburgh, "when we will see huge centralized heating plants broadcasting heat to be utilized at far distant points in homes, plants and office buildings."

We are all prepared to believe the thing possible and certain to come. For the wonder of the radio, almost beyond anyone's dream a few years ago, puts us in the frame of mind of expecting anything of science, even the total abolishment of human scepticism.—Toledo Blade.

Minard's Liniment for Colds

Princess Mary Is Never Late
Princess Mary has been learning since nursery days that punctuality, like cleanliness, is almost divine. Breakfast at Goldsborough Hall is at nine o'clock sharp, and neither she nor Viscount Lascelles is ever late.

Children's Colds

Are best treated externally. Check them overnight without "dosing" by rubbing Vicks over throat and chest at bedtime.

Yet most of the world's big jobs are held by men who didn't impress the neighbors very favorably as youngsters.

TONIC TREATMENT FOR INDIGESTION

Indigestion Comes With a Run-Down Condition—Relief Comes Through Enriching the Blood—Dr. Williams' Pink Pills Make New Blood.

There are many symptoms of indigestion such as acute pain after eating, belching of wind, nausea and vomiting, bloating and pains in the region of the heart, a dread of food for the misery it causes. Dieting and the use of pre-digested foods may give ease, but that is all, and meanwhile the stomach grows steadily weaker. The work of digestion depends upon the blood and nerves and the "only way to get rid of indigestion is to tone up the stomach through the blood, to do the work nature intended it should do. The one thorough way to do this is through the use of Dr. Williams' Pink Pills, which renew the blood, strengthen the nerves and enable the stomach to do its work with ease and comfort. Neglected indigestion means prolonged misery. If you have any of the symptoms of this trouble try the tonic treatment with Dr. Williams' Pink Pills at once and you will be gratified with the results.

Among the many who have found new health through the use of Dr. Williams' Pink Pills is Mrs. Ada Webb, R.R. No. 3, Prescott, Ont., who says: "For a long time I went through the tortures of nervous indigestion; I call it torture because no other word can describe what I endured. If my stomach was empty I retched. If I took food I vomited. I did not sleep, and I was steadily growing weaker. I doctored for months but with no benefit. One day my husband said, as the treatment you have had has not helped you, why not try Dr. Williams' Pink Pills. I consented and he got me a supply. After I had been taking the pills for a while I knew they were helping me as the pains and retching grew less and I slept better. I gladly continued the use of the pills and in a few months I felt like a new woman, better than I had felt for years, and able to work for my husband and children again. After such a wonderful experience how can I do anything else but recommend Dr. Williams' Pink Pills."

If you need a blood-building tonic begin taking Dr. Williams' Pink Pills today. Sold by all medicine dealers or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Rents amounting to more than \$1,250,000 are annually collected by the City of London from property it owns.

For Colds

BAYER

ASPIRIN

Proved safe by millions and prescribed by physicians for
Colds Headache Neuralgia Lumbago
Pain Toothache Neuritis Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetio-acidester of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

THE CROW'S NEST RATE PROBLEMS AGAIN TO FORE

Ottawa.—The Crow's Nest Pass rate problem is again in the hands of the board of railway commissioners. The order issued last September extending these rates to westbound grain and flour resulted in three separate appeals to the board for further interpretation. The first of these was settled last month, when by an equal division among the commissioners the September order was continued in force. The board closed a week's sitting on the other two appeals, in both of which judgment has been reserved. These two last cases were parts of an effort by the provinces of British Columbia, Alberta and Saskatchewan to get a further reduction in the rates as put in force by the railways under the September order. These provinces claimed, first, that the eastbound rates on grain and flour are above the Crow's Nest basis as interpreted by the act passed last June. They asked that these eastbound rates be reduced in accordance with this claim, and then used as a basis for making westbound rates. On this matter, the board reserved judgment.

The second effort of the three provinces to get the westbound rates reduced was an application for a direction to the Canadian Pacific Railway to discontinue the differential of 124 miles, used in making its rates east of Calgary. The rates, in effect, were made by the railways on the basis of the Canadian National mileage from Edmonton to Vancouver, which is 124 miles greater than that from Calgary to Vancouver. The three westernmost provinces claimed that the railways had no right to use this differential or constructive mileage; and asked that it be discontinued. On this issue the board reserved judgment.

Scales Mountain In Blinding Snowstorm

Highest Peak in South Africa Conquered By Cape Town Climber

Cape Town.—Kilimanjaro, the highest mountain in Africa, has been conquered in a blinding snowstorm, after the second attempt within a month, by G. Londt, the noted Cape Town climber.

Mr. Londt said that he set out with two natives at the beginning of November. He climbed nearly 20,000 feet in four days. He slept one night in a crater of the Kilimanjaro wilderness by a jagged rock of twisted lava.

He pointed out a mistake which had been made by previous climbers. They imagined that the crater was the top of the mountain, but that is not so. The real test lies in the 600 feet above. He discovered the record of two Germans who, in 1914, reached the highest point.

It is an American cloth-covered exercise book containing two verses of poetry. There followed the names of the two climbers, Carl Von Salls and Walter Von Ruchteschell, dated February 13, 1914.

Display Of Wealth

Splendor Marks Great Coronation Fete Of Indian Ruler

Jammu, Kashmir.—Rarely has India, with all the riches of its princes, witnessed such splendor as was displayed when the new Maharajah of Jammu and Kashmir, Sir Hari Singh, entertained 150 guests at a state banquet in honor of the ruling princess and chiefs of the native Indian states who are here from all parts of the country for his coronation.

The princes were served on gold plates and the members of their staffs on solid silver. The native rulers were attired in their priceless state robes, and the great ornate banquet hall of the royal residence blazed with light cast from jewels whose value was estimated at a total of several million pounds.

Heavy Catch Sinks Vessel

Copenhagen.—A Norwegian fishing vessel, which left Vaagsoy one morning, and last seen at four the same day, is believed to have sunk with all five hands, under the weight of an exceptionally heavy catch.

Progress Is Made On Alberta Highways

Government Ready to Proceed With Farm Loan Measure

Edmonton.—The debate on the address from the throne has given several of the ministers an opportunity to explain the work of their departments.

Hon. Alex. Ross, minister of public works, explained the progress that has been made in the construction of main highways throughout the province. 600 miles of main highways have been rebuilt according to the specification necessary to earn the Dominion Government grant of forty per cent. of the cost and 240 miles have been gravelled. The department expects this year to do more work than ever. By the end of the summer they expect that a main highway from Athabasca on the north to the international boundary on the south will have been completed, and also a highway from Edmonton to Peace River. A motor road will also be completed from Edmonton to Jasper National Park. At present the road is twenty-five miles from Jasper, and should reach Jasper this summer. The progress made in road construction had attracted many tourists this summer, 22,000 having registered at the east gate of Banff National Park during 1925.

Hon. R. C. Reid, provincial treasurer, informed the house that the municipal districts throughout the province were in very good financial shape. During the year only forty had borrowed from the banks, and at the end of the year only 29 were owing the banks anything.

A Liberal member had charged that the hotels of the province were cluttered up with government inspectors, but if that was the cause, said Mr. Reid, during the Liberal regime they must have been parked outside, for at the present time there were only 105, as compared with 188 in 1921. Salaries were down \$59,300, and travelling expenses \$138,000.

Suspend Proposed Increase In Rates

Plan to Raise Rates on Stockers and Feeders by Fifty Per Cent.

Ottawa.—Suspension of the proposed fifty per cent. increase rate on stockers and feeders in the western provinces, was ordered by the board of railway commissioners.

The increase, which it was proposed by the railway to put into effect on March 1, would apply to rates on stockers and feeders from primary markets such as Winnipeg, Moose Jaw, Calgary and Edmonton to stations in Manitoba, Saskatchewan and Alberta.

It is probable that the matter will be considered at the time of the hearing in Regina on the general rates inquiry. No date for this sitting has been decided upon, but it will probably take place within the next two months.

The application for suspension was made by W. H. McEwen, counsel for the province of Saskatchewan.

Refused Landing At Chinese Port

Hong Kong, China.—Two American women missionaries of the American Pentecostal Holiness Alliance and a British woman missionary were not allowed to land at Pakhoi, because they came from Hong Kong. The officials' refusal to permit them ashore is part of the strike and boycott movement in the south which has been intensified in the past few days.

Loan Quickly Bought Up

New York.—Over subscription of the Canadian Government's \$40,000,000 ten-year bond flotation in the United States has been announced by the financial syndicate which underwrote the issue.

Books for the loan, which constitutes the first major financing by the Dominion Government since last September, were open for two hours only.

Oil Monopoly In Turkey

London.—The Standard Oil Company has obtained an oil monopoly in Turkey, according to Constantinople newspapers.

The Turkish Government is said to have agreed to purchase all its oil supplies from Standard depots at Constantinople, Smyrna and Samsoun.

Opposed To Crime News

Rome.—Indications that the Vatican will take a stand against crime news in the daily papers, in the same way that it has opposed immorality in dress, are contained in the *Asseveratore Romano*, official organ of the Vatican.

SOME MANITOBA CABINET CHANGES ARE IN PROSPECT

Winnipeg.—Many changes in the cabinet of Hon. John Bracken, premier of Manitoba, are pending, according to reports in legislative circles.

It is stated that a complete reorganization of the cabinet will be undertaken at the close of the present session, including a general shifting of the positions of several of the ministers. Since the resignation of Hon. F. M. Black as provincial treasurer, Premier Bracken has held the portfolio, in addition to his office as premier and president of the executive council. It is now reported that Hon. W. R. Clubb, minister of public works, will assume control of the treasury department.

Other cabinet ministers would be shifted to new departments, and one new minister appointed. I. B. Griffiths, member for Russell, is mentioned as a possible appointee.

Hon. R. W. Craig, attorney-general, it also is reported, has definitely decided not to be a candidate at the provincial election, and should the government be successful at the polls, R. M. Matheson, K.C., Brandon, is mentioned as Mr. Craig's successor. Mr. Bracken will make an appeal to the electors either during the present summer or in 1927.

Will Discuss Peace On Pacific

Canada and United States Invited to Meeting in Honolulu

Honolulu.—The Australian Labor party has issued a call for a meeting in Honolulu in November for all Pacific nations, including Canada and the United States, with a view of arriving at a better understanding in respect to the future peace in the Pacific.

This information was contained in a message from D. L. McNamara, secretary of the Labor party, to A. H. Ford, director of the Pan-Pacific Union, here. More than 100 delegates, including representatives of the Soviet, are expected, McNamara said.

He added it was intended to bring together representatives of Labor and other organizations from countries bordering on the Pacific.

Letters By Sleigh

Cappereleuch, Scotland.—Owing to the roads being blocked by snow the mails to this town are being conveyed by a horse-drawn sleigh over the field, and in other quarters goods are being conveyed by men on horseback. Several areas on the Scottish borders have been cut off by snow, and sheep farmers have suffered serious losses.

Manitoba Debate Brought to Close

Winnipeg.—The debate on the address in reply to the speech from the throne came to an unexpected end in the Manitoba Legislature after 23 days of debate. Quietly and without ceremony the house passed the customary motion that the speech be engrossed and presented to the lieutenant-governor.

Asking Explanation Of Alleged Bombardment

British Ambassador Must Get Report From U. S. Government

London.—Sir Esme Howard, British ambassador at Washington, will be asked to make inquiries of the United States Government and send a report regarding the alleged bombardment of the Canadian schooner *Eastwood* by the United States coastguard cutter *Seneca* off the New Jersey coast recently.

This was stated in the House of Commons by Sir Austen Chamberlain, foreign secretary, who had been asked about the circumstances of the case and whether he intended to take action to ensure respect for British merchant shipping.

Sir Austen said he had no information except what had appeared in the press.

He added that he was unable to say what trade the schooner was engaged in, but the press accounts said she was engaged in an attempt at rum-running.

Aviator Killed In Paris

Plane Caught in Wireless Apparatus In Arch of Eiffel Tower

Paris.—An attempt to fly through the opening of the Eiffel Tower proved fatal.

The aeroplane, caught in wireless apparatus, crashed in flames and the aviator burned to death.

The flier, Lieut. Leon Callot, had passed through the arch when he struck the radio wires. He made a despairing attempt to bring the machine under control, but it fell and burst into flames.

Firemen were quickly on the scene, but were unable to save the aviator.

Lieut. Callot's brother witnessed the accident. He said the lieutenant attempted the feat after a wager with a friend.

Prince Has Narrow Escape

Had to Duck to Avoid Plunging Horses At Islington Show

London.—The Prince of Wales had a dangerous experience at a Shire horse show at Islington when a mare in the ring near him began to kick and set several horses rearing and plunging. There was general commotion about the Prince, but no one was injured.

Just before this he had been compelled to duck and jump aside to avoid a horse which had suddenly swerved in his direction.

Not having had enough of horses for the day, the Prince went hunting in the afternoon, this being the second time he has followed the hounds since the recent accident in which he suffered a broken collar bone.

Hope To Resume Debt Parleys

London.—Winston Churchill, chancellor of the exchequer, stated in the House of Commons that M. Doumer, French minister of finance, expressed hope that he would be able to come to London soon for the resumption of debt negotiations.

Honored by Indian Tribe

Here is a photograph of Robert Randolph Bruce, new Lieutenant Governor of the province of British Columbia, being appointed as a chief of the Stoney Indians. The governor was given a puff at the Pipe of Peace and seemed to enjoy it.

FEDERAL RURAL CREDIT PLAN IS AN URGENT NEED

Regina.—The operation of a federal long-term rural credit plan with provisions for the establishment ultimately of co-operative credit societies such as exist in Ireland, Germany, Italy and other European countries, was approved by the Canadian Council of Agriculture at its annual meeting here.

The council referred back to the various organizations the question of making Armistice Day a separate holiday to Thanksgiving Day and left to the association to deal with themselves the question of liens prior to first mortgages. Resolutions asking for the reorganization of the board of pension commissioners, for more timely distribution of reports of experimental farms, for the elimination of exchange and the cashing of all cheques at par and favoring the conscription of wealth during war time were among the more important measures adopted.

Chief interest, however, centred around the topic of rural credits, more especially in view of the fact of the announcement of the Dominion Government in the speech from the throne of its intention to provide during the present session of parliament to establish a system of long-term loans to farmers.

The preamble of the resolution ultimately adopted set forth the belief of the council that "the ultimate solution of the problem of rural credit will be found in the development of co-operative credit societies controlled and operated by the farmers themselves, but also recognizes that conditions in many parts of Canada are not yet favorable for the development of such societies on a large scale."

To Meet Competition

Americans Cut Prices As Alberta Coal Goes On Sale In Ontario

Toronto.—Reductions in price of American anthracite and domestic coke were made in Toronto, coincident with the commencement of sale by the city authorities of the first part of its thousand-ton shipment of Alberta coal.

Coke was reduced two dollars a ton and semi-anthracite one dollar a ton. Property Commissioner Chisholm said that it was obvious the city's Alberta coal competition had forced down prices on coke and other fuels here.

Manitoba To Return Money

Winnipeg.—Provision for returning the money collected under the Manitoba Grain Futures Act, will be made in a bill to be introduced during the present session of the Provincial Legislature, by Premier John Bracken. The act was recently declared ultra vires of the province by a decision of the judicial committee of the privy council, following joint action by Alberta and Saskatchewan.

High Cost Of Education

Winnipeg.—By an overwhelming majority delegates attending the annual convention of the Manitoba Teachers' Federation, declared against increasing consolidated school areas in the province. Referring to charges of high cost of education, Dr. Shortreed maintained that more money was spent on liquor, tobacco and other unnecessary luxuries than on education, without arousing a murmur of protest.

Trans-Canada Starts May 16

Moose Jaw.—The Trans-Canada Limited, the fastest transcontinental train on the American continent, which is operated every year by the Canadian Pacific Railway Company from Montreal to Vancouver, will be inaugurated on Sunday, May 16, starting from Vancouver, Toronto and Montreal. The trains this year will be operated on practically the same schedule as in the past year.

Will Test New Helicopter

London.—Four European countries are hastening to test the Clerva helicopter, which its inventor claims will revolutionize aeroplane construction.

Five Clerva helicopters are under construction in England with the inventor supervising the work; the Spanish Government is building two of 300 horsepower each; and France and Italy each are negotiating for the construction of five.

Church Services

Sunday

10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
8.30 p.m.—Senior League of Christian Endeavour

Thursday

7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

"That must mean me"

There will be a special service for the reception of members sometime in the near future, all who have any thought of joining the church should see the pastor for the usual interview before joining. Just a hint by the telephone or otherwise, will open the way for an appointment for such an interview. "Come thou with us and we will do thee good"—Num. 10:29.

The pastor (Rev. Roppel) is glad to announce that whereas the Mennonite S.S. and Ministerial Convention is being held this week in the M.B.C. church, here, we have the promise of having one of their preachers to occupy our pulpit next Sunday evening. We hope for a large attendance and a good hearing for the message and the messenger.

Plans are on foot for an Easter Cantata, entitled "From Cross to Glory" to be given in the church on Easter Sunday. Watch for further announcements.

How the time does fly, only three more weeks to the end of our conference year. This reminds us all of the many things we ought to do before that time, some may have a kind deed to bestow; others a promise to fulfil and still others a pledge to pay, etc. The brevity of time urges us all not only to "will" but to "do".

Miss Lucinda Eifert of Buffalo, N.Y., is visiting at the home of Mr. and Mrs. H. W. Gable's and other acquaintances here, renewing old friendships.

Friends and acquaintances will be glad to know that Mrs. J. K. Debbit who has been ill and confined to her home for nearly a week is able to attend the church services again.

A pleasant hour was spent on Monday evening by a few relatives and friends who gathered at the home of Mr. and Mrs. Abe Meck, in honor of their daughter Miss Wilma.

Within the Province.

EARLIEST PLANTING

Probably the earliest record for garden planting in the history of the province was recorded last week at Magrath, according to the Lethbridge Herald, when Fred Blumel planted vegetables in his garden there. The weather has been so springlike that work has been in progress on the land at several points.

GOOD REVENUE FROM UNIVERSAL PHONE SERVICE

Although it cost the provincial government an investment of only \$1,900 to establish connection with the universal telephone service giving continent wide phone connection, by means of a copper circuit from Lethbridge to the international border, the government telephone department has had a revenue of

\$100 a month from the service since its inception. The outgoing calls average 350 a month.

PLAN BIG CELEBRATION

Extensive plans are being made for the celebration to be held at Camrose, Alberta, by the Norse people of Canada on July 3, 4, 5 and 6 next. Dr. Norbye of Camrose, is the president of the Norse Society of Canada which is making arrangements for the affair. Many visitors from the United States and other parts of Canada are expected to attend.

INFORMATION FOR FEEDERS OF STOCK

Eight groups of steers, eleven lots of hogs, four pens of sheep and two lots of dairy cattle on test this winter at the University will contribute some interesting facts in connection with the feeding livestock in Alberta, on Feeders Day at the University, April 10th. A load of fall farrowed pigs, less than six months old, was marketed recently from the University. These were Tamworth-Yorkshire crossed, raised on self feeders and graded 85 per cent. select. This is further evidence of the fact that select hogs can be matured fully as early as other types and also points to the possibility of winter pig production.

RECENT ALBERTA BUTTER WINNINGS

In the all-Canada butter competition held recently at Winnipeg, Alberta butter exhibits carried a total of twenty of the sixty prizes offered, in competition with other provinces of the dominion.

NEW MUNICIPAL HOSPITALS

Following the successful vote in favor of the establishment of a rural municipal hospital district at Innisfail, steps have been taken to commence construction of the hospital building. A vote on the establishment of a hospital district at Vulcan will be taken March 15.

NEW OIL WELLS

Ten new oil wells will be drilled in the famous Turner Valley field south of Calgary in 1926, according to Charles Ross, senior

dominion government mining inspector. Five new wells will be drilled in the Moose Mountain area west of Calgary and at least four new wells in the Wainwright field east of Edmonton, according to Mr. Ross's forecast of the 1926 program in the oil fields.

BEE-KEEPING SHORT COURSE.

Bee keeping is becoming more and more popular in Alberta. Many tons of honey are produced each year. As a result the general public is becoming more interested in and wish to acquire more knowledge on the subject. To meet this demand there will be a short course in bee-keeping at the Olds School of Agriculture on March 18th and 19th. Two practical bee men, Messrs. Duncan Chalmers of Edmonton and Shurtz of Sterling, will be present and give all information wanted on the subject. Both these men produce many thousands of pounds of honey each year and depend entirely on the keeping for a living.

In the past two years bees have done very well at the O.S.A. Last summer one colony produced 150 lbs. of honey.

NOTICE OF SALE.

Notice is hereby given under section 48 of The Domestic Animals Act, that one bay gelding, branded right shoulder, was impounded in the pound kept by Geo. Metz, located on the S.W. 1-4 sec. 24, Twp. 31, Rge. 27, W. 4, on the 16th day of February, 1926, and that said animal was sold on the 3rd day of March, 1926, to J. S. Thompson, of Sunnyslope, Alta., and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned

A. Brusco, Sec.-Treas.,
Municipal District of Mountain View No. 310
Didsbury, Alberta.
